NITRATE PROJECT SEWER CONSTRUCTION

Beginning January 4, and continuing through early May 2018, the City's contractor, Visinoni Brothers Construction, will be installing sewer lines along segments of West 11th, 12th, Algonkin, Iroquois, Shoshone, Sequoyah and West Lindo and Zuni Avenues, just west of the Esplanade.

In general, the work consists of the construction of approximately 4,000 linear feet of 8-inch sewer main line as well as lateral line installation. Road resurfacing operations will include a slurry seal over the previously described project limits once installation is complete.

Local access throughout the project construction zone will be subject to traffic controls and temporary delays in order to accommodate construction crews and equipment. Drivers are encouraged to build extra time into their schedules or plan alternative routes to avoid the project area if possible. The City acknowledges the inconvenience and appreciates your cooperation and patience during this time. Residents and businesses are assured access to their properties at all times.

A map of the project area is attached. For questions or concerns regarding this project, please contact Visinoni Brothers Construction at 530-877-3071, or City of Chico Senior Civil Engineer Matt Thompson at 530-879-6959 or matt.thompson@chicoca.gov. For additional information about the Nitrate Project please go to <https://www.buttecounty.net/administration/NitrateComplianceProgram.aspx> or visit the Public Works Facebook page at <https://www.facebook.com/cityofchicopublicworks/>.
